Instructions for Loading 12oz PET Bottled Product

Step #1 Install short soldout lever (P/N 1083449) Locate spring on right (low tension) side.

Step #2 Install soldout spacer on front mech plate (P/N 1077457) below soldout lever.

Step #3 Install gage bar into position #1 (Left hole).

Step #4 Back Spacer Location is Critical for Vending Product. Product Length Will Effect Vendibility. Locate Back Spacer into Proper Slot. (See Figure 1 for BK. SP. Location & Product Type - *)

Step #5 Set cam to #1.

Note: Placement of bottle cap is to the back of the vendor
