

# MEI VN2700R Bill Recycler vs. the Competition

	Competition			MEI	
	JCM RC-10	Crane Currenza	Coinco VR6	MEI CASHFLOW VNR	MEI Advantages
Design type	Modular	Non-modular	Modular	Modular	Modular approach allows for future proofing—decision to upgrade can be made now or later
Physical footprint	About double MEI bill validator	More than double MEI bill validator	About same footprint overall as MEI	Small, about 1/3 more than 2 competitor bill validators	Smaller footprint allows for greater variety of machine compatibility
Recycler Note capacity	10	1-30 programmable	1-30 programmable	1-30 programmable	High capacity programming provides optimum float flexibility
Display for contents	No	Yes	Yes	Yes	Content display improves route driver efficiency
Cassette size	300	300/400/600	200	300/400/500/600/1000	More cassette sizes improves flexibility
Error diagnostics	3 way LED on back of recycler	Front LEDs go red and flash	3 way LED on back of recycler	2 digit rear display	Using 2 digit display improves clarity of error for driver
Bezels	No high-visibility option	Blue LED bezel	Green LED bezel; adaptable to credit card reader	Multi-color high-visibility bezel option in VFM or compact style plus all combinations of cash/cashless bezels	Attention grabbing light pattern with accepted denominations displayed in real time. Add cashless option to accept all forms of payment.
Jam clearing	Requires removal of recycler	Manual wheel on side of recycler—limited bill path accessibility	Requires removal of recycler	Manual wheel—complete bill path accessibility	Manual wheel combined with easier bill path accessibility increases field fix capability
Cash Accountability	No tamper sensors	No tamper sensors	No tamper sensors	Tamper evident sensors	All cash is accurately accounted for and a notification alerts when the validator has been adjusted
Coin changer compatibility	Requires extra board to interface with non-CMS changers	Requires extra board/cable to interface with non-CMS changers	Works with any MDB coin changer	Works with any MDB coin changer	Compatibility with any coin changer allows customer to leverage existing asset base
Service	Limited	4 Crane Service Centers Only	13 Coinco service centers only	81 MEI ASCs/Service Centers	MEI recycler can be serviced as operators & bottlers are used to. Competitor brands require special handling.
