Changers that make DOLLAR\$ and \$ENSE

Standard Change-Makers' **NEW** BCX-Fujitsu™ Series Changers provide more convenience for your customers - by breaking those Tens and Twenties into combinations of bills and coins! Our BCX Series is ideal for attended or unattended self-service businesses. Now you can offer your customers the benefit of bill change with their coinage, without paying benefits for an attendant.

Our BCX-Fujitsu™ Bill Exchangers accept higher denomination bills (\$20s & \$10s), and dispense lower denominations and coinage (\$5, \$1 and Quarters or Tokens). The versatility of the design allows business owners to maximize revenue opportunities and take the bill breaking responsibilities away from their attendants. Call your Standard Change-Makers distributor for more information.

- **"Always Transfer" feature** allows machine to make best change by transferring down from an empty dispenser to a lower denomination dispenser. Gives you more time to replenish!
- **MDB Serial Interface** provides more accurate communication between the Bill Dispenser & Bill Acceptor
- **Heavy-Duty Steel Cabinet** is solid-welded, no rivets or spot welds. You will have over \$5,000 of your hard-earned money in this machine - you want to protect it!
- **Two Year Limited Warranty - One Year Warranty on the Fujitsu™ Bill Dispenser only.**
