

MC350RL-CC

3130 N. Mitchell Road Indianapolis, IN 46235
800-968-6955 Phone: 317-899-6966 Fax: 317-899-6977

Rear Load

The new MC350RL-CC Credit Card-to-Ticket machine was specifically designed for Amusement, Family Fun Centers and Carnivals. This unit can be mounted in a Ticket Booth or on a counter. It gives your customers access to tickets via credit card transactions only.

The cabinet is solid welded steel and painted with a powder-coat enamel finish. The faceplate is painted steel with applied Lexan™ graphic. (An optional stainless steel faceplate with 2' overhang is also available). The cabinet opens via a t-handle lock in the back. The MC350RL-TIK has a 1.156' Entropy™ ticket dispenser and a special magazine that will hold up to 10,000 one-inch wide fanfold tickets. (1" or 2" wide Deltronics ticket dispensers are available as an optional feature). A weatherproof credit card reader is included with a dial-up POS terminal device for processing. A LCD display provides feedback and instructions for users, along with your choice of Package or Pulse Selection Buttons.

This machine will help eliminate long ticket lines and control personnel costs.

Height	Width	Depth	Shipping Weight	Changes
32	9	13	100 lbs.	Credit Cards
Number of Hoppers	Number of Validators		Stacker Capacity	
Up to 10,000 fanfold Tickets	N/A		N/A
